Afterwards, it will be posted on the Whalefest YouTube channel.

Whalefest Monterey 2021 will include presentations about Minke whales, dolphins and porpoises, leatherback turtles, intertidal gastropods, orcas, and creatures from the deep sea. They will also cover new ways to prevent whale entanglements, the latest developments in the Monterey Bay National Marine Sanctuary, and the connection between vineyards and the ocean environment. There will be an explanation of the art and science of whale song and how to compose with whales.
