### About Wharf Walks

For thousands of years people have made their living fishing the Monterey Bay, beginning with the Rumsien Ohlone, the Native People of the Monterey area. From abalone to rockfish, everything was fished and utilized and the Monterey Bay was a multi-cultural view, made up of whalers from the Azores, squid fishermen from China, salmon fishermen and abalone divers from Japan, and Sicilians fishing sardines in the "dark of the moon." This entertaining tour of Old Fisherman's Wharf and the waterfront will take us back in time to explore the history of the Monterey Wharf, early history of the Monterey waterfront, The Rumsien/Ohlone People—Monterey's first fishermen, the abalone industry, whaling on the bay and of course, the legendary sardine industry. Discover some of the people and cultures of Monterey's colorful past and hear fascinating stories about Old Fisherman's Wharf and those who worked and walked there. Learn more about the sardine and squid (calamari) industry, too. (Note: There is a brief history on this page too: <http://www.montereywharf.com/history.html>)
