About Whalefest Monterey

Each year, Whalefest Monterey celebrates the migration of the gray whales, and benefits the many local and national marine organizations that build awareness about the Monterey Bay National Marine Sanctuary which educate, inspire, and empower the public to protect it.

Among the highlights will be a Symposium with lectures and documentaries related to ocean and marine life conservation, musical performances, and many educational displays by participating organizations. Thousands of attendees are expected again this year that range from local families and school children who want to learn more about our maritime environment to visitors from near and far who want to explore the annual whale migration.

Whale watchers come from around the world to view hundreds of whales, orcas, dolphins and pelicans who continue to feast on a "krill and anchovy buffet" in the Monterey Bay National Marine Sanctuary. Throughout the year, this Whale Watching Capital of the World offers sightings of 15 species of whales, 10 species of dolphins, 2 species of porpoise, 6 species of pinnipeds and 1 species of Fissiped (sea otter).

Weather permitting, whale watching tours, fishing, sailing and glass bottom boats will be operating from the Wharf many at discounted rates), and Wharf restaurants will be serving lunch and dinner. Wharf shops will also be featuring marine-themed merchandise.
