

WHALEFEST – Monterey 2014
Inspire, Educate, Explore, Empower Symposium and Documentary Films
Saturday 25 January 2014

Time	Track	Symposium	Documentary	Theater	Overview
10:00am		Opening Session: Welcome by Symposium Host: Marine Life Studies		Museum of Monterey (MOM)	The Symposium is designed to tell the story of what is happening below the surface of our oceans by talking about cetaceans and their present ecosystem.
10:05am	Cetaceans		Disappearing Dolphins (7:02 minutes)	Museum of Monterey (MOM)	An EarthOcean Production. An overview of changes in cetacean populations, and an introduction to the significance of Global Marine Protection Areas.
	Ecosystems	The Serengeti of the Sea Lies Offshore of Central California and Why That is Fantastic for Monterey , a presentation by Bill Douros, NOAA Office of National Marine Sanctuaries.		Museum of Monterey (MOM)	An overview on why we are seeing the incredible wildlife display in the National Marine Sanctuaries off the California Coast. You will learn about the tremendous opportunities this provides to the public and for recreation and tourism businesses, not just those engaged in on-the-water activities.
11:00am	Ecology		Our Playground, Their World (22:25 minutes)	The Wharf Theater	A Project-Green Works Production Each year, millions of people flock to the nation's coastal and inland waters to soak up the fun and sun. As a recreational boater, find out what you can do to minimize your impact on these natural resources. Learn how to prevent sewage and oily water discharges, recycle hazardous materials, and maintain your boat to protect the environment.
11:30am	Ecology		Don't Move a Mussel (46:00 minutes)	The Wharf Theater	A Pacific States Marine Fisheries Commission Production The invasion of the quagga and zebra mussels are being found to have a devastating impact to lakes, reservoirs and rivers in the U.S. This documentary will help you gain an understanding as to why this is an invasive species.
11:15am	Cetaceans	The Extreme Life of the Sea: Stories about the biggest animals that ever lived , a presentation by Dr. Steve Palumbi PhD., Hopkins Marine Station, Stanford University.		Museum of Monterey (MOM)	Based on Steve's new book, this will show how whales from Belugas to narwhals to humpbacks and greys live exuberantly in the world's oceans...when we let them.
1:00pm	Cetaceans		The Sperm Whales of Greece-Life in the Trenches (17:02 minutes)	Museum of Monterey (MOM)	An EarthOcean Production Enjoy an introduction to the most social of the great whales and how they use acoustics to survive.
1:30pm	Ecology, Economy and Community	Solving California's Water Crisis: What we can learn from whales a presentation by Dr. Carol Reeb PhD., Hopkins Marine Station, Stanford University	Inked in Black; The Value of the Market Squid	Museum of Monterey (MOM)	An overview of the interdependence commercial fishing, science and business have on the Pacific Ocean.

	Ecology, Economy and Community	Of Whales and Shipping a presentation by Dr. Michael McGinnis PhD., Monterey Institute of International Studies, Center for the BLUE Economy.		Museum of Monterey (MOM)	An overview of today's dependence on commercial marine vessel traffic and the impacts it has on ocean ecology. This presentation will describe these impacts, and recent management responses to address these impacts off the shore of California.
	Ecology, Economy and Community	The Fishing Industry; a triple bottom line view , a presentation by Henry Pontarelli, an independent consultant.		Museum of Monterey (MOM)	The focus of this presentation is the triple bottom line impacts, and realities of working waterfronts in California, with commercial fishing as case studies (West Coast albacore fishery).
	Ecology, Economy and Community	The Economic Value of the Ocean: What strategic critical thinking should we be doing to safeguard ocean ecosystems and protect our coastal economies? , a panel discussion by Dr. Carol Reeb, Dr. Michael McGinnis and Henry Pontarelli,		Museum of Monterey (MOM)	What strategic critical thinking should we be doing to safeguard the health of our oceans and marine life?
1:30pm	Family Theater			The Wharf Theater	Barbara Joy and A Children's Chorus La Mesa Tech Center Chorus Club Salvation Army Preschool
	Family Theater			The Wharf Theater	Whiskie the Whale Spotter™ Meet Peggy Stap, Marine Researcher and Whiskie her canine marine biologist.
3:30pm	Ecosystems, Cetaceans, Ecology & Economy		Planet Ocean (45:00 minutes)	Museum of Monterey (MOM)	A BLUEOceans production. Capturing the extraordinary images of our remarkable oceans. It explains some of the planet's greatest mysteries and how essential it is that we live in harmony with the oceans.
5:00pm		End of Saturday Programs: We encourage you to enjoy an evening of reflection over dinner at the many fine restaurants on Old Fisherman's Wharf.			

WHALEFEST – Monterey 2014		<i>Inspire, Educate, Explore, Empower Symposium and Documentary Films</i>			
Sunday 26 January 2014					
Time	Track	Symposium	Documentary	Theater	Overview
10:30am		Opening Session: Welcome by Symposium Host: Marine Life Studies	Vaquita (7:00 minutes)	Museum of Monterey (MOM)	A EarthOceans Production Learn the plight of this beautiful mammal in Baja California.
10:45am	Ecology, Economy and Community	The Ocean is Not so Quiet and Safe , a presentation by Dr. Geoff Shester PhD, OCEANA		Museum of Monterey (MOM)	Noise in the ocean has a highly disruptive impact on marine life to navigate and communicate. This presentation by Dr. Geoff Shester PhD OCEANA will highlight environmental impacts have on the ocean ecosystems and raises the question, how much irreversible damage is current technology causing? This is an opportunity for public opinion.
11:00am	Monterey Bay History	Footprints on the Bay: 5000 years of Boom & Bust on the Monterey Bay. a presentation by Tim Thomas, Monterey Bay Historian.		The Wharf Theater	For thousands of years people have made their living fishing the Monterey Bay, beginning with the Rumsien Ohlone, the Native People of Monterey. From abalone to rockfish, everything was fished and utilized and the Monterey Bay was a multi-cultural stew, made up of whalers from the Azores, squid fishermen from China, salmon fishermen and abalone divers from Japan, and Sicilians fishing sardines in the "dark of the moon." This presentation will take you back in time to explore the history of the fisheries of Monterey Bay.
11:45am	Cetaceans		The Humpback Code (45:00 minutes)	Museum of Monterey (MOM)	A BLUEOceans Production An illustration of how Cetaceans communicate.
1:00pm	Entertainment	Kuumbwa, a 2013-14 Honor Band, Santa Cruz		Museum of Monterey (MOM)	Enjoy the live jazz performance outside the Museum of Monterey
12:00N	Ecology, Economy and Community		Bag It (45:00 minutes)	The Wharf Theater	Plastic is ubiquitous...ever tried going a day without having to use plastic?
1:00pm	Ecology, Economy and Community	Critical Thinking: Sustainability in Everyday Life		The Wharf Theater	Ted Terrasas, City of Monterey, Sustainability Department; When we throw something away, just where is away? Gain a valuable insight into our single use/dispose culture and what it means for our children's future.
2:00pm	Ecology, Economy and Community	Critical Thinking: Giving the oceans a chance to adapt	A New England Story for Sustaining the Sea (45:00 minutes)	Museum of Monterey (MOM)	An OceanFrontiers production. Gain an insight into what needs to be done to give the oceans a chance to adapt to the changes imposed on it.

2:00pm		MBARI Imagery from Monterey Bay: Below The Surface		The Wharf Theater	When we look out over the beautiful Monterey Bay we see sparkling blue and grey water; come and view what this view looks like below the surface.
3:00pm	Entertainment	Kuumbwa, a 2013-14 Honor Band, Santa Cruz		Museum of Monterey (MOM)	
5:00pm		End of Sunday Programs: We encourage you to enjoy an evening of reflection over dinner at the many fine restaurants on Old Fisherman's Wharf.
